## ROOSEVELT ALARMED OVER ANTI-JAPANESE BILL, SAYS GILLETT

Governor, in Special Message, Urges House  
to Rescind Action on the School  
Segregation Legislation.

SACRAMENTO, Feb. 5.—Governor Gillett sent to the assembly this morning a special message appealing to the body to rescind its action of yesterday by which the Japanese school segregation bill was passed.

The governor calls attention to the contention of Japan, which is not recognized by the United States government, that the bill as passed violates the treaty rights of the Empire. He does not enter into a discussion of the merits of this proposition, stating that it is a debatable question, but relies rather that Japan would consider it an unfriendly act to exclude from the public schools the children of subjects.

### Gillett's Message

The message in full is as follows:

To the Legislature and Assembly: Gentlemen: Believing that there should be a further and more careful consideration of Assembly bill No. 14, which provides that board of schools trustees shall have the power to establish separate

Heiress in San Bernardino Gets Decree for Being Deceived on Honeymoon.

SAN BERNARDINO, Feb. 5.—The jury for the trial of ex-Supervisor Michael W. Coffey was completed at 12:45 p. m. today in Judge Dunne's court and a continuance had until Monday morning at 10 o'clock, when the actual taking of evidence will commence.

The four women jurors, secured this morning were R. M. Petrich, peasant; Mrs. J. H. Brown, retired farmer; Mrs. Shrader street; A. Devoto, coal dealer; 19 Verein street; and J. H. Orlmann, hay and grain, 2024 Twenty-second street.

Contrary to general expectations, Judge Dunne did not order the jurors into the custody of the sheriff, but after warning them as to their duty, allowed them to go.

Will Bill Be Vetoed?

John W. Preston of Utkah said the Governor had been placed in a serious predicament by the action of the assembly in vetoing the bill, which he had vetoed if passed, and so long as the lower house already had committed itself he was in favor of letting it go at that.

## DELAY ON ANTI-JAP BILL

### ASSEMBLYMEN VOTE TO HOLD UP MEASURE

Grove Johnson Speaks Against Postponement, but Is Willing Proposed Law Should Be Submitted to Atty. Gen.

SACRAMENTO, Feb. 5.—Speaker Phillip A. Stanton took the floor today and secured, by a strong personal appeal, unanimous consent of the assembly to postpone further action on the Japanese school segregation bill until next Wednesday.

He declared he had information which would not reveal that proved the assembly was treading upon dangerous ground in passing the anti-Japanese bill yesterday.

At the conclusion of the speaker's address, Grove L. Johnson, author of the bill, asked that the matter of reconsideration of yesterday's vote be put over until Wednesday, and his motion carried without dissent.

Senator A. Gillett introduced the Japanese school bill in the Senate.

Both houses adjourned until Monday evening.

Grove L. Johnson, author of the bill, spoke against postponement. He suggested that the bill be submitted to the House judiciary committee and the attorney general for an opinion as to the constitutionality of the bill.

Chairman of the Union Labor Assembly from San Francisco, spoke against delay.

Doubts Constitutionality

Richard McLean of Anaheim favored submitting the bill to the attorney-general.

He said there was grave doubt as to its constitutionality and he believed that the political situation in the state was such that the bill should not be passed.

He declared he had information which would not reveal that proved the assembly was treading upon dangerous ground in passing the anti-Japanese bill yesterday.

## ROOSEVELT ALARMED, SAYS GOV. GILLET

(Continued from Page 1.)

It is not to be stopped in the Legislature at all.

A telegram so forcible as this coming from the President of the United States is entitled to full consideration and demands that no hasty or ill-considered action be taken by this state which may involve the whole country.

### Duty to Nation

It seems to me that it is time to lay sentiment and personal opinion and considerations aside and take a broad and unprejudiced view of the important questions involved in the proposed legislation and the right to seek pleasure and amusement and the right to acquire an education.

By our constitution and laws the State of California has provided a free public school system for all its children. This system has been provided for all resident children, native born and aliens, to support these schools system money is given to both citizens and aliens. The law also provides for the compulsory attendance of all resident children, whether of aliens or citizens. To our knowledge no discrimination is made against any subject of any favored nation. This is a great privilege which our state extends to them. This right is given to them by virtue of their residence within the state and is part of our obligation to policy to encourage education and to improve and develop the minds and character of those who make their homes here independent of their citizenship.

### Jealous of Rights

Japan, under its treaty, being one of the favored nations and being jealous of the rights of its citizens claims for their children the same rights and privileges as are accorded to the subjects of other favored nations. This claim our government recognizes and stands ready to enforce. If the treaty as claimed, guarantees to Japan's children the rights and privileges accorded to the children of aliens of other nations, then those rights and privileges, so long as the treaty remains, should be observed, and if our morals and sense of justice are to prevail therefor, then the treaty should be annulled by the general government, as this State has no power to do so.

While the treaty with Japan does not and cannot require a state to establish or maintain a system of public schools or to admit alien residents therein yet it is contended by the authorities in Washington that the state of California can by treaty, extend to the resident citizens of this nation a treatment and enjoyment of rights and privileges equal to those afforded to the citizens of any other foreign nation and if a state should agree to do so far as it guarantees that the state should be annulled by the general government, as this State has no power to do so.

### Action Not Tried

This action was never tried but was dismissed on the withdrawal by the school board of San Francisco of the resolution complained of.

Every one supposed that this vexed question would be settled in fact the people of the State had almost forgotten it and were no longer paying much attention to it until the bill under consideration was introduced in the assembly. There has been no general demand for such legislation; there is no immediate or present danger to our schools and no bad influence over the public schools known to us there are but very few Japanese pupils attending our public schools and there is no occasion, at present at least, for any unnecessary alarm.

### Japan's Claims

It is claimed by Japan and admitted by the authorities in Washington that the bill passed will be in violation of the treaty existing between the two governments.

Without expressing any opinion upon this subject, it being a debatable one, I wish to call your attention to the views of Japan and conceded so far, by our government, to be correct. There is contained in the present treaty with Japan the following language, to wit:

In whatever relates to rights of residence and travel the citizens or subjects of each contracting party shall enjoy in the territories of the other the same privileges, liberties

## MOST OFFENSIVE MEASURE OF ALL'

President Thus Stigmatizes Anti-Japanese Bill Passed by California Assembly.

WASHINGTON Feb 4—News of the passage by the California assembly to-day of the bill providing for the segregation of the Japanese school children was received in official quarters here with surprise and alarm.

President Roosevelt immediately sent to Governor Gillett a telegram to which he described the bill as "the most offensive bill of all and clearly unconstitutional." Governor Gillett's telegraphic reply to the president had not been made public at a late hour last night.

### President Stands Pat

President Roosevelt indicated clearly in his telegram to Governor Gillett that he has not changed in his attitude of two years ago, when he declared in his annual message to congress submitted just before the visit of the San Francisco delegation that to admit them (the Japanese) out from the common schools is a wicked absurdity when there are first class colleges in the land including California which do not gladly welcome Japanese students, and on which Japanese students are to learn.

"We have as much to learn," said the President at that time, "from Japan as Japan has to learn from us and no nation is fit to teach unless it is also willing to learn."

Continuing the message says: "To provide that the clerks and other employees shall be appointed after an impartial examination and to provide that the examinations for appointment to political party affiliation means that the appointments shall be selected as the prerogative of the self-styled political party instead of the politicians of the unity. I don't believe in the doctrine that to the victor belong the spoils, but I think even less of the doctrine that the spoils should be given without a fight by the professional politicians on both sides and this will be the result of permitting the bill in its present shape to become a law in the state. I am in favor of the merit and law excluding competition that is not exacting the appointments being made in the interest of the public and competent to speak with authority because of his knowledge or familiarity with the work of those companies he is serving and demoralization."

# REPORTS OF FABIOLA OFFICERS SHOW HOSPITAL MAKING GREAT PROGRESS

**Mrs. John Yule Wants to Retire as President of the Association.**  
**Reports Made to the Directors Are Very Encouraging and Show That the Hospital Has Achieved Great Results During the Past Year.**

The annual meeting of the Fabiola Hospital Association was held this afternoon, and directors and officers for the ensuing year were elected. The reports of president, Mrs. John Yule, and the secretary and treasurer, show that the hospital is in a flourishing condition. The ladies of the hospital have built for the future and of course they have created considerable indebtedness which must be taken care of during the year. The listing of this institution, it is believed, will be a decided help to Fabiola recently opened has proved a great success.

### Mrs. Yule to Retire

Mrs. John Yule, who has been president of the hospital for twenty years prior to that she announced to the ladies today that she desired to retire from the presidency. She stated that she had been very ill during the past twenty years and thought that she was entitled to a much-needed rest.

### Many Ladies Interested

At the time of going to press, it was not decided whether Mrs. Yule's retirement would be accepted. She is eligible to continue longer with her magnificent work as president. Mrs. Yule will continue as a director of the hospital. Associated with her will be Mrs. Mary Cook, a member of prominent ladies of Oakland, who are also entitled to a share of credit in bringing Fabiola up to its present efficient condition.

### President Yule's Address

President Yule's address was as follows: "The Fabiola Hospital Association

maintains a general hospital for men, women and children, besides a dispensary, a large school for the training of young women and men for the profession of nursing. Fabiola also gives the services free or on a nominal charge for the visiting and care of the sick in their own homes, also maintains a free clinic where the poor may come every day, receive free treatment and medicine, and renewing and adding to equipment that will keep us abreast with the progress of the world in restoring health and curing disease. This hospital care for three classes of patients: First, those who are destitute of money, the second, those whose means are limited, who may have them available, and third, those who are able and do pay regular hospital charges.

### Cared for Many Sick

"This work has been faithfully done for Oakland and humanity by Fabiola for nearly thirty-two years."

"When Oakland was smaller, having no other hospital except the county hospital and that when far away from the well-maintained institution that it now is. Fabiola took care of the sick in the city, until the city had its own hospital, the City Hospital. But Fabiola receives no State, county or city aid, has no general endowment, and no fixed income, and with the parts it is now possible to add to the parts it is now impossible for her to care for all the poor, so careful discrimination has been made to admit to the free beds.

"During the year just closed Fabiola has cared for 1855 sick people. Of these 775 were cared for in the hospital, 242 were out-patients and 421 were cared for by our visiting nurse.

"The number of patients for free during the year was 126. The number cared for in the hospital was 42, the part of the cost was 108. The balance paid regular hospital charges. Of the 1855 free patients 200 were cured in the hospital. 200 were partially relieved and 165 were cared for by our visiting nurse.

"The amount of money expended for free work amounted upon a basis of actuarial to the hospital \$1,420.

"The work for out-patients is a very important department of the hospital, as many times bread-winners and mothers receive medical aid and treatment for serious illness and to restore health and at the same time they can continue their work or care for their families.

"The medical staff consists of course, rests with the physician or surgeon having charge of each particular patient.

### Physicians at Hospital

"During the past year 7 physicians have cared for patients in Fabiola. How these physicians and surgeons perform their part is told by the splendid record of recoveries, so many leaving the hospital in a condition far removed from that brought in seemed beyond human help.

"While the medical care is entirely in the hands of the physicians, the responsibility rests upon the hospital management to see that the best methods are applied.

"To this end two resident physicians are employed, who give such assistance as they can to the attending physicians and surgeons. These resident physicians during the year were Drs. Doctors Sutherland, Rude and Brereton with Mrs. Dousky in charge of the pharmacy.

"The nursing force consists of a general superintendent of nurses and nursing Miss Katherine Fitch; night superintendent of nursing, Miss Benson; a supervisor of the kitchen, Miss Bunker; infirmary and operating room, Miss Jensen; one graduate resident for Miss Fitch, Miss Smythe; one graduate assistant for Miss Jensen, Miss Bunker; Miss Bunker, Miss Ward, assistants and instructors in massage.

"Miss Cowan, dietitian, has charge of the diet kitchen and instructs the nurses in the preparation of foods for the sick and adds to this are sixty undergraduate nurses.

"At the head of the household staff is Mrs. Fay, with one assistant matron and six attendants, who are in charge of the kitchen and dining rooms, as cooks and waiters; six are employed as porters and cleaners; one ambulance man; one gardener; one housekeeper for the purpose of house cleaning; six for laundry; two engineers, one for day and one for the night, with one general assistant, two in charge of the books and correspondence in the office, in charge of the switchboard and telephone.

"Total number on the salary roll, one hundred.

### Small Army Employed

"Bear in mind also, that this small army of people must be provided with food and lodgings; then consider the expensive equipment for the care of the sick, their food, nourishment, etc., and you can see what a responsibility rests upon the directors to meet these expenses each month.

"From the first day this hospital was founded to the present the one thought of by the founders was to provide every facility possible to assist the physicians and surgeons in their efforts to restore health and not to stint any expense for building, equipment, maintenance, salaries, food, water, fuel, light, heat, etc., and your directors have been compelled to meet these expenses each month.

"For some time the need has been growing for better facilities and more conveniences for the surgeons, whose unexcelled work entitled them to the best possible equipment. To this end the management have held rummage sales, and entertainment, and held various fairs and contributions from friends, this has been for from an easy task.

"For some time the need has been growing for better facilities and more conveniences for the surgeons, whose unexcelled work entitled them to the best possible equipment. To this end the management have held rummage sales, and entertainment, and held various fairs and contributions from friends, this has been for from an easy task.

"After careful consideration your directors decided to make the entire amount available to the building fund and undertake the building of an annex that should meet the urgent needs of the hospital. That building is now completed, and has been turned over to the physicians, who have travelled extensively and have large experience, as more fully meeting the requirements of hospital work than any other institution they know. This is true on the third floor, which is devoted exclusively to operating rooms, such as aesthetic and sterilizing rooms, and recovery rooms, and to the use of surgeons, nurses' work rooms, where cat-gut bandages, gauges, etc., are prepared; resting room for surgeons, etc., every practical need in everything of the best.

### A Good System

"The first and second floors contain twenty rooms for patients, the floors and walls being of wood, the rooms well lighted, having large windows; many have private baths, and every room is sunny and cheerful. The ventilating system is arranged with the idea of keeping the air as fresh as possible, and every practical need for the nurses to assist them in their work of nursing the sick, such as a laboratory, a dispensary, a library, a lecture room, and a sitting room. This annex is connected with the main building by a corridor thirty feet in length.

"So far the furnishing of the rooms of the new annex has been done by private individuals, at their own expense. These furnishing such rooms in the new building are:

"Mrs. F. E. Welles, Mrs. Daniel E. Easterbrook, Mrs. Helen Rand, Mrs. Isadore L. Jones, Mr. John C. W. Miller, Mrs. Wm. G. Hastings and Mrs. and Mrs. Frank C. Havens. There are twelve rooms still unfinished in the annex, and we will very much thank the kind of the hospital would assist the work by furnishing a room.

"The completion of this new building marks an important epoch in the history of the hospital, making the efficiency of the work there any more but those closely connected with the active work of the hospital can understand.

"The well, with tank, pumps, etc., cost about \$1,000. The need of some definite aid to Fabiola in caring for destitute patients becomes more apparent each year. The sums given from private patients are all used for that purpose. Our buildings are all kept up abreast with the progress of the world in restoring health and curing disease. We are in a position now to appeal to the public in a general way, through entertainments and subscription, that it is not surprising if the public seem a little surprised in finding the solution of this problem for us is to be used.

"The hospital care for three classes of patients: First, those who are destitute of money, the second, those whose means are limited, who may have them available, and third, those who are able and do pay regular hospital charges.

### Endowed Beds

"We now rejoice in five beds endowed in perpetuity, and one annual endowed bed, namely, St. John's bed, endowed by Mrs. R. W. Kirkham, the Florence Evelyn, endowed by Mrs. H. E. Cooke, the bed named after Mrs. Anna Folger, the Mrs. Moyer bed, endowed by Mrs. Lucy Shaw; the Red Cross bed, endowed by Captain of the United States Cavalry, and the Vanderveer bed, endowed for one year by a group of young people with the proceeds of a vaudeville entertainment given in San Francisco.

"The bed given by Mrs. Anna Folger is the most recent addition to the hospital.

## JURY DISAGREES IN BANKER'S CASE

## UNCONSCIOUS MAN IS ROBBED

President Gow Tried on \$145,000 Larceny Charge; Other Complaints Pending.

**NEW YORK** Feb. 5.—The Brooklyn jury before whom Gow, formerly president of the International Trust and director of the Borough Bank of Brooklyn, was tried on a charge of larceny of \$45,000, had not agreed early today the vote standing eight for acquittal and four for conviction. Gow was already held under \$27,000 bail and this was continued. The charge against Gow was based on the withdrawal of \$145,000 in the Borough bank. It was charged to finance the organization of the International Trust company. Another charge of the larceny of \$250,000 is also pending against Gow, as are also three charges of misdemeanor based on overdrawal of his account with the Borough bank.

### CHURCH ROW OVER MINISTER'S SALARY

**SAN FRANCISCO** Feb. 5.—When devoting his time at the intersection of Third and Polk streets to his office this morning, A. S. Burke was run down by another who, in a fit of sudden attack of the "mumps," had suddenly may stand in his way. He was knocked on the floor and knocked to the side of the roadway. A large crowd gathered around and several persons knelt by his side.

After he had been removed to the Central Methodist Hospital and restored to consciousness, he stated that he had been robbed of \$100 and it is supposed that someone went through his pockets during the excitement.

His injury consisted of bruises and abrasions of the entire body, a possible fracture of the skull and deep lacerations of the scalp and a wound over the right eye.

### NOTED STEREOPTICAN LECTURE ON BEN HUR

Dr. W. S. Kelly will give his noted stereoptican lecture on "Ben Hur" at the Centennial M. E. church, corner of Ninth and Chestnut streets, at 8 o'clock tonight. This masterpiece of religious fiction has gripped the attention of the world. In his lecture Dr. Kelly makes real again the scenes by his life size moving stereoptican lecture on "Ben Hur" at the sea fight, the chariot race and the crucifixion, etc. are vividly portrayed.

**The Policy of Street Lighting.**

The City Council has authorized the Board of Public Works to install electroliers on Seventh street from Pine to Fallon streets on the same conditions that such street lights have been installed on Broadway, San Pablo, Washington, Clay, Twelfth, Thirteenth, Fourteenth and other streets in the business district. But at a recent meeting of the Board of Public Works a resolution was introduced recommending that the policy of electroliers be limited to the district bounded on the west by Clay and on the east by Franklin. The grounds on which the resolution was offered are strictly economical. It was referred to a committee of the whole for consideration and will probably fail of adoption.

The policy of street lighting adopted and encouraged by the administration and approved by the council has, up to date, favored the installation of electroliers on all thoroughfares within the area which business has invaded in recent times and which, according to all present indications, it will wholly occupy in the next two or three years, provided the owners of property cover the expense of supplying and erecting the electroliers, the city agreeing to bear the cost of lighting. It is a broad and progressive policy which has been popularly approved.

It would, we think, be a grave mistake to depart from that policy now. Oakland's business area continues to expand. No one can foresee at the present time where it is going to stop. It will certainly be unwise, not to say unjust, to attempt to put an arbitrary limitation to the expansion such as the resolution, if adopted, would accomplish in effect, for on what reasonable grounds can Franklin and Clay be made the eastern and western limits of the business quarter when everything indicates at present that the whole of the territory between Grove and Fallon streets is destined in the near future to be occupied for strictly commercial purposes? Not the slightest popular opposition has been manifested to the administration's policy of street lighting up to the present time. To the contrary it has been unanimously endorsed, and whatever extra expense it has imposed on the city's financial resources has been cheerfully met. To abandon this policy and curtail its application now would be retrogressive and entirely out of joint with the spirit of progression and development which animates the city. It would, moreover, be apt to excite popular opposition on the ground that it will have a tendency to throttle the natural expansion of the business quarters to the disadvantage of the territory which is in a transitory condition and for the exclusive benefit of that which has undergone the change.

**Anti-Japanese Legislation.**

However desirable it may be to restrain Japanese encroachments in this and other Pacific Coast States, it is hopeless to expect anything effective to be accomplished under the impulse of such hysterical and emotional demonstrations as have been witnessed during the debate over the anti-Japanese bills in the Assembly this week. Describing the President as "the Pope of Politics" and denouncing the Japanese as "bow-legged Simians" is not dignified, and it does not display the kind of spirit through which honest and intelligent legislation can be expected to be enacted. Of course, it is well understood that those who indulged in these abusive epithets were merely "playing to the gallery" and vieing with one another for the plaudits of the lobby. These displays of legislative hysteria are apt to lead people abroad to believe that California is still in "the wild and wooly west" of frontier life.

That some form of restraint upon the influx of Japanese in this State is essential is generally admitted. In many respects they are more of a menace to the industrial interests of the State than the Chinese ever were, for they are vastly more aggressive and self-assertive and they are now among us in much greater numbers. Unfortunately, the States lying east of the Rockies fail to comprehend Pacific Coast opposition to the Japanese, as they were unable to understand the anti-Chinese sentiment here until Mongolian colonies were established in some of their own cities and they came directly in touch themselves with the degrading influences of Oriental life. The battle for Chinese exclusion was a long and bitter one; but it triumphed finally when it was undertaken on sane lines.

We may be required to carry through a long campaign of anti-Japanese education before we attain results corresponding with those achieved in the case of the Chinese. The trouble now is that in the efforts made at Sacramento to restrain the Japanese, the sponsors of the bills insist on including provisions which override Federal treaty obligations and thus defeat their own purpose. The introduction and passage of such measures accomplish nothing further than to excite bad blood and stimulate an inflammatory agitation, bringing us unnecessarily into contempt and making us appear ridiculous in the sight of the people of other States and nations who do not understand the conditions under which we are suffering through the constant encroachments of Asiatics.

The Chamber of Commerce's report of the bank clearings for the week ending at noon yesterday shows a gain of nearly one-half million dollars over the corresponding week of a year ago. That is, in itself a healthy showing; but it falls far short of the actual gain in business which the record would show if Oakland's collection system were placed on the same basis as that of San Francisco, which is now deriving a large fictitious benefit from trade transacted exclusively in Oakland. The Clearing-house returns show that this city is now doing business on a basis of nearly \$2,000,000 a week, whereas it is a matter of common knowledge that it is immensely in excess of that sum.

The motion to reconsider the Drew anti-alien land ownership bill was very properly defeated in the Assembly yesterday, although it was accompanied with an offer to eliminate from it a section which admittedly violated the treaty rights of several nations. However, distasteful the acquisition of realty in fee simple in the State by Japanese or other Asiatics may be to many citizens the adoption of a measure prohibiting aliens from acquiring property here after nearly sixty years of freedom for them to do so would be fraught with too many uncertainties and dangers to the public welfare to warrant its adoption now.

The abolition of the wooden crosswalk which the council has undertaken to carry out is a good thing. These crosswalks eat up annually an immense amount of valuable timber and give poor satisfaction, for they are soon wrecked and must be frequently renewed. In the southern part of the city these crosswalks are constantly out of repair and are utterly incapable of resisting the tremendous wear and tear to which they are exposed by the enormous traffic which they are required to carry. It is a wise policy to abolish them.

**National Forest Revenues.**

The National Forest Reserves are rendering a good account of themselves, and it is being practically demonstrated that they can be managed economically and profitably and their existence perpetuated indefinitely, by an intelligent and systematic process of lumbering. As a source of timber supply the national forests are, moreover, more generally appreciated than ever before.

During the year 1908 there was harvested in the national forest reserves 392,792,000 feet, board measure, of merchantable lumber, as against 194,872,000 feet in 1907, thus showing an increase of 102 per cent in their productiveness.

Under the provision of the national forest reserve law, the States in which the forests are located derive 25 per cent of the revenues obtained through the timber sales, for the support and maintenance of the public schools and highways. The sum of \$447,064 has thus been distributed among these States last year. In addition to this 30,000 free use permits were issued to settlers through which they received free about 264,000 cords of firewood, posts, poles and saw logs worth at a very low estimate of \$169,320, thus bringing the total value of the share of the forest States to \$616,384 as the result of the year's operations.

The forestry bureau has followed the policy of encouraging small sales. If this policy were not adopted those engaged in lumbering on a large scale would soon control the whole output.

The greatest danger to which these national forest reserves are now exposed is from fire. The destruction of timber in them from this cause last year was enormous. But plans are being matured to reduce the danger from this source by opening wide fire lanes through them to facilitate the fighting of fires by the forest rangers and to prevent them from spreading through the standing timber. One of the most novel devices in this respect is illustrated in a contract which has been awarded by the government to cut out wide lanes in the Lassen national forest reserve in this State by pasturing a flock of three thousand Angora goats on the brushy chaparral, and blocking out the forest so that in the event of a fire starting in any section of it, it will be unable to cross these lanes and spread from one block to the other, as there will be no underbrush left for the flames to feed upon. The experiment is to be carried on for two years and, if it proves successful, herding Angora goats in the forest lanes will become a permanent feature of national forest management.

It is quite a compliment to the banking clerks of Oakland that in the annual competition held under the auspices of the American Institute of Banking, the adding machine championship still remains in the possession of W. A. Stuart, a member of Oakland Chapter, who established a record this year of adding correctly 150 items in two minutes and thirteen seconds.

But he decided to visit the bewilering metropolis quite as a man of the world—not to be taken in by the wicked men who, as he understood, aids and abets in devoting the gathering in State. Here he arrived at the Grand Central looking very very wiza, and proceeded, first of all, to visit the collection of wax figures at the Edsel Museum. He was engaged in looking critical; at one of the most life-like groups on exhibition there, when a policeman suddenly plucked him by the sleeve. The up-State turned pale. You must, indeed, be a bold hoodlum, however. A look of wisdom beyond the power of words to describe came over that up-State's face. Continuing brazenly to smoke, he remarked: "Tut,

SAN FRANCISCO, Feb. 5.—A surprise party was given recently to Miss Edna Nelson at the home of her parents, Mr. and Mrs. J. C. Nelson, 101 Highland Avenue. The party was spontaneous and playful games. The music was furnished by the Triump Orchestra of the Merry Widow Club, under the direction of others from the "Old Squaws," endeavored to obtain control of the meeting and nominate officers who would use their influence to further Democratic policies. Failing in the effort and being in ten in their own game, they became disgruntled and have since done all in their power to obstruct and belittle the work of the League and its officers.

Failing in the effort and being in ten in their own game, they became disgruntled and have since done all in their power to obstruct and belittle the work of the League and its officers.

# SOCIETY SMART SET

MRS. CLARENCE CROWELL ENTERTAINS AT LUNCHEON TODAY

MISS REED ENTERTAINS MEMBERS OF BRIDGE CLUB

Mrs. Clarence Crowell entertained a congenial coterie of friends today at her artistic home on Perry street. The Crowell home is distinctively artistic in its interior, the furnishings all being in a soft shade of brown which lends itself admirably to decoration. The flowers used today were of the delicate-scented violet and the geraniums. These flowers are in full bloom during the month of January and February and it is with regret that we see the passing of the spring blossoms.

Covers were laid for the dainty luncheon for:

Mrs. Louise Gage Mrs. Frank Watson  
Mrs. Frederick Mrs. Henry  
More Mrs. Rosenfeld  
Dr. Barnard Mrs. Nichols  
Mrs. Lee Cole Mrs. Clarence  
Mrs. Wickham Mrs. Crowell  
Havens

Following the discussion of the delicious menu, bridge furnished the fascinating diversion for the afternoon.

**ENTERTAINED BRIDGE CLUB.**

Miss Lily Reed entertained the members of one of the smaller bridge clubs at the Reed home on Harrison street this afternoon. The group of friends making up the personnel of the club are:

Mrs. Ruth Mrs. Mollie Mathes

**HOME WEDDING.**

A pretty home wedding was that which united Miss Evangeline Williams and Walter S. Reed. The ceremony was solemnized with a most impressive service at which the Rev. B. Fay Mills officiated. On Tuesday evening, February 3, the marriage was solemnized at the home of the bride's mother on Eighth street, in the presence of the immediate relatives and a few close friends.

The bride wore her traveling gown of brocade in a becoming shade of blue with hat to match.

Mr. Reed has large mining interests in Shasta and Trinity counties. He is a young and promising business man of sterling qualities. Owing to the recent death of his mother the wedding was observed with utmost simplicity. The bride is an extremely pretty girl, sweet and lovable in disposition with a host of friends who wished her every good wish for her future happiness. Mr. and Mrs. Reed will make their home in La Molne, Shasta county.

**SOCIAL MEETING.**

Mrs. W. C. Brown, president of the Pacific Coast Women's Protective Association, announces the social meeting of the association to be held on Monday afternoon at the club rooms in the Century Club building, 2:30 o'clock.

The program for the day will comprise a study and discussion of "The Irretrievable Current," by Mrs. I. Lowenberg. The author of the book will be guest of honor. Mrs. Laura Y. Finney will present the characters of the book. A discussion by members will follow. Assistant W. T. Campbell, Mrs. W. C. Brown, Mrs. Ella M. Sexton, Mrs. Josephine Martin, Mrs. Florence Richmond and other members taking part. A splendid musical program will be given under the direction of Mrs. Mariner Campbell.

The affair will be given Saturday, February 13, over one hundred cards having been issued for the important event.

The complimented ladies are the house guests of Mrs. Van Sicklen and expect to remain on the coast for about three months.

**BIRTHDAY PARTY.**  
Little Miss Alice Schmitz will celebrate her tenth birthday tomorrow afternoon at Piedmont Park clubhouse, when about a dozen of her young friends will share the pleasures of the occasion with her. Many pretty games have been planned for the afternoon and the young folks are anticipating the happiest of afternoons. Of course, the afternoon festivities will not be complete without a feast of good food and it is whispered that the supper-table will be especially attractive.

There will be candies and a wondrous birthday cake and all the dainties dear to a child's heart.

**ORIOLE CLUB.**

A meeting of the executive board of the Oriole Club was held at the home of Mrs. F. E. Scott, 388 Eighteenth street last evening. After the discussion of the regular routine business of the club, including a white tournament to be held the latter part of this month, the business session adjourned and the evening was given over to sociability. A dainty little supper was served, H. L. Leavitt acting as host.

The Oriole's next dance will be held in Maple Hall Friday evening, March 6. The next regular meeting of the club will be held in the club's room in lower Maple Hall Tuesday evening, February 9, when the evening will be given over to a brief business session and informal dancing for members and friends.

Those present at the executive meeting wore the Misses E. Strachan, L. Graham and E. Johnson and Messrs. A. J. Smith, M. M. Isham, R. H. Robinson, F. W. Boyers and W. W. Clark.

**BIRTHDAY LUNCHEON.**

The luncheon given by Mrs. George Uri on Wednesday at Piedmont Park Clubhouse was a most enjoyable occasion. The occasion was the 25th birthday anniversary of the hostess. The guests were seated at a large round table, the decorations being of yellow jonquils. Those who shared the pleasures of the day were Mrs. Neppach, Mrs. Southerer, Mrs. Smith, Mrs. Minney, Mrs. Gross, Mrs. Theodore Gray, Mrs. Enoch, Mrs. Werum, Mrs. Heesemann, Miss Lotte Heesemann, Mrs. Cudlin, Mrs. Bonzinger and Mrs. McPhee, all members of the German Ladies Aid Society. The afternoon was happily enjoyed with happy felicitations to the popular hostess.

Members of the medical profession, ministers, nurses and clubwomen of the bay cities gathered last night at the Oakland College of Medicine and Surgery to discuss plans for organizing a tuberculosis society in Alameda county, for the purpose of stamping out the white plague. Dr. H. G. Thomas presided at the meeting. Miss Mary Pago of Berkeley, who was instrumental in arranging the meeting, was chosen temporary secretary. Dr. Edward Von Adeling opened the discussion of the evening upon the subject of tuberculosis.

"About 200,000 people die in the United States annually of tuberculosis," said Dr. Von Adeling, in addressing the meeting. "At the present time about 5,000,000 people are doomed to die. One seventh of the deaths is due to tuberculosis. Tuberculosis causes monetary loss of one billion dollars a year to the State.

"In California 4,607 died in 1907 from tuberculosis, and 4,497 in 1908. In southern California one-fifth of all the deaths are from tuberculosis. North of Berkeley only one-eighth of the deaths are due to tuberculosis. Five per cent can be cared for in the sanitariums but the balance must have home treatment.

**Conditions Deplorable**

"The death rate in California is larger than any other state in the United States. It does not rank in any other state for the cure of tuberculosis. The conditions are terrible and deplorable for those suffering from it.

Dr. Von Adeling recommended that the society teach the principles of hygienic living. He suggested that a number of chest experts form a clinic to be engaged for the purpose of examining tubercular patients. He also suggested that trained and interested people teach that poor how to arrange their rooms

and instruct them how to prepare their meals. The distinguished physician attended the International convention on tuberculosis and has studied the various phases of the disease carefully.

R. G. McLean of Berkeley recommended open-air living for tubercular patients.

THE YEDDO GLASGOW, LARGEST STEAMER TO COME UP THE ESTUARY.

## LARGEST STEAMER TO PASS UP ESTUARY ARRIVES IN PORT

The British steamer Yeddo Glasgow steamed into Oakland harbor about 4 p. m. yesterday with 2500 tons of coal from Australia. When she attempted to land at Adams wharf four feet of sand stuck in the mud, detaining the steamer from making a close enough landing to the coal bunkers. The Yeddo Glasgow is reported to be

the largest steamer that has ever entered the estuary. She is 400 feet in length and 62 feet in width, and has a carrying capacity of 7662 tons. This craft is owned by the Weller Company of London, which has number of vessels stuck in the mud, detaining the steamer from making a close enough landing to the coal bunkers.

The Yeddo Glasgow is reported to be

## RAILROAD TRAVEL IS NORMAL AGAIN

Messenger Prevents Man Secretly Consigned in Box From Carrying Out Plan.

TOLEDO, O., Feb. 5.—Toledo police and railroad authorities are investigating a "man in the box" mystery which they believe was an attempt to rob a mail train on a Toledo-Chicago train last Wednesday. In the car was a long box consigned from Toledo to Worcester, Mass., by the American Express company. Near Sandusky the messenger heard a voice coming from the box and, upon opening it, discovered a man who jumped out and began a struggle. The messenger, however, covered the stranger with his revolver. The train was stopped and the man thrown out on the beach. The police of Cleveland and Toledo are working on the case but have no clue.

## WALSH AND YOUNG ERNE ARE MATCHED TO FIGHT

NEW ORLEANS, Feb. 5.—Freddie Welsh of England, and Young Erne of Philadelphia, are scheduled to fight a twenty-round bout on the evening of Saturday, February 20, before the West Side Athletic Club, at McDonoughville, across the river from here.

## UNITED STATES MAY GET ANOTHER CARDINAL

ROME, Feb. 5.—The Tribune, commenting on the death of Cardinal Cicali, points out that the sacred college has thus been reduced to fifty-three, and says: "In the event of another cardinal being created, there will be room for three more prelates who might be raised to the purple—Archbishop Ireland, who is most learned and is noted for his writings especially, and Archbishop Farley of New York."

Hawaiian girls will serve tropical fruit at the Panama-Pacific Exposition. A large arrangement of fruits will be kept in refrigerators during the exposition.

### ELKS TO COMPETE FOR DRILL PRIZE

The Oakland Elks Drill corps, which is to compete for the first prize at the competing reunion of the order in Los Angeles, has been thoroughly organized and consists of thirty picked men under Colonel S. C. Ritter, as commanding officer, and Walter Neffsinger and Oscar Whitney as lieutenants.

The first drill prize has heretofore consisted of a \$1000 banner purchased by the local committee of the entertaining lodge, but this year it is to be optional with the winning corps whether it will take the banner or its cash equivalent.

Colonel Ritter is drilling his men Tuesday night and Sunday afternoons at Idora Park. The drills contain many unique features and are emblematic of the order's exact character, as well as the style of uniform of the corps, are being kept secret for now and will be given to competing bodies.

The Oakland Elks have already decided

on their negligee uniforms for the competition. They will be of white hamlet with double-breasted coats and straw hats.

The band will be formed of the best musicians to be found in the city.

Dredger No. 420 is now laid up at the shipyards awaiting orders.

J. G. Camp of the yards is in Sacramento on a business trip.

William Williams is back at the works again, having recovered from an operation recently performed on his neck.

### WIFE IS CHARGED WITH DESERTION BY TAILOR

Edward R. Forrester, by Attorney L. L. Rawson, today filed a complaint alleging desertion against his wife, Adele K. Forrester, and asking for a divorce from her. From friends of the Forresters, it is learned that a gradually grown antipathy is at the root of their troubles. Forrester is secretary of the Byron Tailor company, tailors, and his wife is now proprietress of a hair dressing establishment in Clay Street, San Francisco. They are both connected with prominent families.

### FERRYBOAT SAUSALITO READY TO LEAVE WAYS

The ferry steamer Sausalito, which has been laid up at the Southern Pacific shipyards for extensive repairs, is about ready to resume the regular runs. She will be turned out Monday.

The tug Collie has been completely overhauled and is now awaiting inspection.

This is the last of Southern Pacific ships to be cleaned from coal to oil burners, and will be used in tow boat for the car float No. 1, at Fort Ross.

# MAYOR MOTT ENDORSED BY DEMOCRATIC PARTY

Present Administration Is Eulogized by Speakers

platform adopted by the convention is as follows:

#### The Platform

The Democratic party of the city of Oakland in convention assembled denounces the oligarchy of the principles of the National Democratic party.

We pledge the nominees of this convention to just and business-like administration of the affairs of this municipality.

In the administration of local affairs and in matters that pertain to the conduct of government of the city of Oakland, we declare in favor of an economical, honest and effective management thereof to the end that public improvements necessary to the welfare of the people and requirements for the immediate future shall be secured with all possible expediency consistent with proper preservation of the rights of individuals and the region being given to the financial burden to be borne by the taxpayers of the community.

#### Water Front

The history of this city discloses the fact that the people of Oakland have since the formation of the original town of Oakland, endeavored to increase the great commercial value of the water front surrounding the city of Oakland, and have insistently protested against the unwise legislation which has been the city of Oakland's large portion of this magnificent natural heritage.

We repledge that by reason of a recent decision of the United States Circuit Court of Appeals, the right to build wharves into the estuary of San Antonio and into the waters of San Francisco bay on the westerly shore of the city of Oakland can only be legally done through a grant of a franchise from the legislative department of the city of Oakland.

It is with much gratification that we acknowledge the restoration of this important legal right to the city of Oakland.

We pledge the nominees of this convention to continue such legislation as will conserve and protect the interests of the city of Oakland in all dealings with the Southern Pacific Company, the Western Pacific Railway Company and other public or corporations desiring to secure privileges on the water front of this city.

#### Immediate Development

We believe in the immediate development and improvement of Oakland's waterfront, but along sound and conservative lines, always keeping in mind the welfare and the greater rights in the premises of the City of Oakland and the duties and responsibilities that we owe to posterity. We believe that the City of Oakland should always retain control over its wharfage and docking facilities to the exclusion of state interference. The naming of the right of way possessed by the City of Oakland and we believe that the necessities of our municipal life require that this most important municipal possession should be chartered to the greatest commercial asset of our city.

We welcome material improvement in our city, whether the same be done by individuals or corporation, and we believe that no person or corporation should be granted franchise for use of any portion of the waterfront of the city of Oakland that is not absolutely necessary for immediate use and actual development.

#### New Charter

The present charter of the City of Oakland is in many respects defective, and we believe that no person or corporation should be granted franchise for use of any portion of the waterfront of the city of Oakland that is not absolutely necessary for immediate use and actual development.

# LAW WILL STOP RACES, NOT GAMBLING, SAYS LEAVITT

## Stock Farms to Suffer Big Financial Losses

(Special to The Tribune)

SACRAMENTO Feb 5.—In closing the debate yesterday afternoon in the Senate on the anti-race track bill Senator Leavitt spoke as follows:

"Mr. President I had intended to make what I would deem quite a talk this afternoon—not a speech because that is beyond me. But ever since I had been here it has been taken absolutely and completely from me by the senator from San Francisco. There is nothing left to say in this matter except it be to repeat what Senator Wolfe has said to you, possibly to change it a little, but I believe it would be an utter waste of time."

### Property Destroyed

"I had intended, however, to go into the question of the amount of stock and the amount of money invested in the stock farms of this State. It is useless. It amounts to about \$1,000,000 that, after the passage of this bill, the stock farms will be absolutely and utterly destroyed. The people who have their money invested in the racing stock might just as well turn their stock out or sell them for cheap saddle soles, because there is absolutely nothing to be done with race horses except to race them. At present they are averaging the sum of \$1,000 apiece throughout the United States, and as fast as you cut a State off the list that permits racing just that much do they depreciate."

"Now, does no stop bill? The Senator from San Francisco has told you rightly. You stop the racing, all you do not stop the gambling at all. You stop it in that place, but you drive it out of the open where man can run over, where man can sit down, and he has much of no little as he pleases, and you drive him into the back rooms of saloons and cigar stores to there do his gambling. You cannot legislate him home, but you cannot legislate him out of the world. If he desires to be in, he will bet, and I want to say to you that there is not one of us on the floor of this senate today that does not gamble in some form or other. To the people there have found favor and endorsement with members of the State Agricultural society who are always ready to encourage any move which will advance the agricultural and the industrial interests of the state."

Senator Ben Rush who has been a member of the upper house for many years and who is also president of the State Agricultural society, is enthusiastic over the matter. He is chairman of the Senate agricultural committee to which the bill was referred.

He says that he knows the sentiments of the members of that committee and that he has no doubt the measure will come out of that committee with a favorable vote within a few hours after it shall have been read there.

### Has Support of Filcher

J. A. Filcher the well-known secretary of the Agricultural society, who has been connected with all the great organizations in this State and has had a great deal to do with the representative displays of the products of California which have been held elsewhere, has endorsed the project in a most hearty manner and his endorsement carries great deal of weight.

Another member of the Agricultural society, another true friend of the innovation, was the late George H. Miller, who was working for the man who sits in the gilded chair of a senator. If I had my way I would take the doors off. And whenever I wanted to be on the level, whenever I wanted to gamble on something, I could do it on the level, where everyone could see me.

**Poolrooms Increase**

"Now, what is the result in the State of New York? That is a fact—a fact of the magnificence law that was going to stop gambling. In that State it is stopped it! I have affidavits on my desk from the decent people who have examined the situation, and they say before a notary public and swore to the conditions existing. Handbooks poolrooms have increased from about one hundred at the time the rule was made to over five thousand in New York today running practically open. There are no attempts to stop them."

"What is the effect of this proposition? I say to stop gambling if you are going to stop it, do it now. Let's not fool from San Francisco. If you want to stop gambling let us stop it, put them all out of business. Line them up in a row every Sunday morning at o'clock sharp, put your gun in the other hand, and go and take the locketope to a church. There is no reason to go anywhere else. It is not moral if you want to get moral. It is not right to be a hypocrite. It is not right to want to help regulate you along the line. Is there any reason why you should not? One man says I want to stamp out of existence this insect. He is a man of fine breeding, fine breeding. The next night there is a prize fight on and he spends a dollar and a half for a ticket, and is trying to beat people to the door to get in—and he is betting on that. That is all right."

**Y. M. C. A. Charges**

"The Sen. and Rep. told you of many crimes that have been committed on the racetrack. We saw the president of the Young Men Christian Association stand on the floor the other evening and an hour later than all the criminals on the calendar should have been in the stockroom. When the president of the Young Men Christian Association in Oakland wrecked a bank did he not let it sit on a horse race?"

"Do you know any men who are not the men you find on the racetrack today? men who do not know what the word 'wager' means; men with whom you can be sharing? I can't think of any man in the country who is not a gambler, and the money that is that kind of men they are. They pay their debts. They pay their way as they go, and I wish to God that the holes could do half as much."

"I do not like to indulge in personalities, but we sat here the other evening in committee and there was a gentleman from the committee of three who would not say to you that I have always had some respect for the cloth, but I much prefer to take the man as I find him regardless of what he does. I do not care so much about the high collar, nor the close buttoned coat because I have known some pretty tough citizens to dress the way, and I would rather take the man as he is. He is the herald of his cloth at all. He had the audacity to get up into the pulpit last Sunday and refer to three members of the congregation as 'Weeans.' Weeans and myself—making out a name, and wound up by 'renting the worthy pres'ident of that estate for putting three suits made during the public trials committee. As far as the personalty concerned, I am answerable to no minister of the Gospel not to anybody else for my morals in this world. I will take care of my own soul, and as a spectator, while he will call it, it keeps me from getting into trouble. I keep my own front porch clean without running around buying brooms for others. Any man who will make that statement it concerns me, but he does not know that he never spoke to in his life, much of necessity. In my humble judgment, he is bigger. I can look at it and say, 'Well, excuse him upon the ground that he does not know any better.'

I am not going to attempt to dilute the passage of this bill by diluting me, and as parliamentarian as I am, I think I could do it if I desired to play the game that way. I have done everything that I could in a honorable way to defeat this bill, but the members of the Senate have done as much as I have done, and I am concerned, I hope off my hat to you. I do not want to hurt your feelings and I would not say anything unkind to you. I am not going to hurt your feelings and I would not say anything unkind to you. I have found them honest and even though they differ with me I am even though they differ with me I am science dictated and God be with you."

# OAKLAND FAIR IN HIGH FAVOR

## Bill Giving State Sanction to Agricultural Exposition Gets Strong Support.

SACRAMENTO Feb 5.—Messrs. B. P. Miller and the well known attorney George W. Reed of Oakland have returned home after having done excellent work in bringing into the legislative the matter of establishing the state fairs in Oakland in conjunction with the state fair which is held in this city toward the close of the summer each year. In their report they have found favor and endorsement with members of the State Agricultural society who are always ready to encourage any move which will advance the agricultural and the industrial interests of the state.

Senator Ben Rush who has been a member of the upper house for many years and who is also president of the State Agricultural society, is enthusiastic over the matter. He is chairman of the Senate agricultural committee to which the bill was referred.

He says that he knows the sentiments of the members of that committee and that he has no doubt the measure will come out of that committee with a favorable vote within a few hours after it shall have been read there.

**Refuse to Talk**

The same reticence was displayed by the committee men when approached on the subject by the newspaperman at the legislature. All of them stood upon their promise to one another to keep the proceedings quiet. One of the members is reported to have said that the committee had not as yet completed its report, and another admitted that the committee would remain silent until the assembly made a promise not to disclose what had taken place and with that answer the papers were obliged to remain silent on the subject.

**President Wheeler Present**

There were present at the meeting President Wheeler of the institution and Secretary Henderson and members of the board of regents.

There are now before the legislature in the interest of the University nine or ten bills all of which either directly or indirectly ask for money.

The first of these introduced was Assembly bill No 671 which asks for a sum between \$500 and \$1,000 a less sustained as a consequence of the recent legislation. This was a proposition made to the recommendation of the members in fact there was no affirmative action on any of the propositions the action being taken on the understanding that the several proposals had a dual function to which it will aid in putting into the treasury of the society money from a source from which but little has been obtained in the past.

In this connection it may be said that Messrs. Miller and Reed have seen a number of members of both houses of the legislature and have ascertained that when the bill comes before them they will do all in their power to push it and the project to success.

**Bills Ask for Money**

Another request was for \$15,000 for field inquiries into the diseases of plant life. This was recommended very strongly as a means of gathering information and the causes of disease among the fruit trees and the inevitable amount of damage sustained by the horticulturist.

**7,000,000 Gallons of Water**

For the first time there was an ex-

emption given to the lawmakers as to what was to be purchased by the \$300,000 to be spent for the purpose of acquiring property in Sacramento and Grizzly peak. The idea

is to strike the Assembly in a very favorable manner and the management of the country up to the sky-line to secure possession of the land to easily and transform it from a useless tract to the one of beauty and practical utility.

**Text of the Bill**

The bill is as follows:

Section 1. A new section is hereby added to the Penal Code of the State of California, to wit:

That it is unlawful for any person to

commit the offense of robbery in the third degree.

The offense of robbery in the third

degree is defined as follows:

That is to say, that if any person

shall commit the offense of robbery

in the third degree, he shall be liable

to imprisonment for not less than

one year and not more than

ten years.

# CANDIDATES HUSTLE TOWARD 500 MARK

**Friends Busy Nominating While Coupon Lasts--Lots Now Marked**

Yesterday's announcement of the short date of the nomination coupon and of the necessity of candidates having 500 votes to be on the published list after next Tuesday, has caused quite a little scurrying on the part of contestants and others.

#### Last Chance

Many people are just waking up to the fact that there are still great nomination prizes which must be won by somebody. \$210.00 in nomination prizes isn't to be scoffed at, is it? Think a minute! The nomination coupon will be issued today and tomorrow and after that you will have to come all the way down to THE TRIBUNE offices to get a nomination blank. So it is much easier to use the one on this page today. You know the name to write, the one you've been thinking of for several days. It wouldn't be fair to him, or her, to wait much longer.

#### Winning Your Spurs

There is only fairness in the new requirements regarding 500 votes. You may enter the contest with your 100 votes, and if you are satisfied to stay right there until April 15 you will still be on the books in the contests department and entitled to all the honors of your position. But with coupon of twenty votes a day, why stand still?

In the days of many years ago knight had to perform certain feats before he was allowed to wear spurs; and why should not contestants show their worth by winning their spurs as it were? You are started with 100 votes, the gift of a friend, and then you are asked to show your interest and your appreciation of your opportunity by getting 400 more, in order that your name may be published with the list of serious contestants in each day's paper. That isn't asking too much, now, is it?

#### Practice on Your Family

Perhaps you hesitate to ask your friends for subscription. That is because you don't realize what a good business proposition you are offering them. Just work up your self-confidence gradually. Begin on your family, and when you have practiced you approach on your father and mother and your brothers and aunts, and landed those subscriptions, you will have courage to ask anyone to take the paper. And you won't be surprised when you get them as easily, either. Try it.

#### Votes Recounted

The business of counting the coupons which come in daily, is no small task. Day before yesterday, for instance, one man brought in three packets, each containing several thousand votes, all in coupons. Receipts are given for largest and greatest care is taken for accuracy; but a slight variation occurs in the number of the contestants, as every coupon will be recounted before the final decisions are given out. The great bundles of coupons are carefully sorted up in boxes and laid away to be counted later in the contest by a committee of citizens in no way connected with THE TRIBUNE. Don't be afraid of anything befalling your coupons, for they are as carefully handled and guarded as possible.

#### Classified Ads Help

An unusually liberal feature of this contest is the fact that votes are being issued with classified advertising. Prizes will be given for each five cents' worth up to \$1 and from then on an ascending scale as follows:

100 votes for ...	\$1 up
150 votes for ...	1.50
225 votes for ...	2.00
300 votes for ...	2.50
400 votes for ...	4.00

All fractional parts over \$1 between amounts designated are figured at the rate of 5 votes for each 5 cents.

THE TRIBUNE has also issued little books containing \$1.00 worth of classified advertising coupons, which are for sale at the office for \$2.50. Each book entitles the purchaser to 300 votes in the contest, besides giving him \$1.00 worth of advertising for \$2.50.

A receipt book with which to secure safe delivery of the ballot will be given each candidate upon application to THE TRIBUNE. Votes will be allowed on subscriptions secured anywhere in the United States or Mexico.

Hough and Adams' musical comedy, "A Stubborn Cinderella," of which

our critics have spoken highly and which

has been favorably compared with "The Time, the Place and the Girl," written by the same authors, was produced last night at the Macdonough for the first time and made a decided hit. The work of Homer D. Mason caught the audience from the funny bone and he proved to be a jolly addition during the evening's entertainment. Unlike many other productions which have the beauty of running gaiety and stereotyped dived in the well dramatized situations, last night's performance did not drag a single moment and was prolific in originality and novelties.

Mrs. Elmdon, as an unsophisticated English lady with her appealing temperament, found her ready a response as the witty and frank sayings of Mason Minx were not slow in finding in finding the points of similarity between her and Fannie Burke, though the binational qualities of both run in quite different channels.

The acting and singing of the quartet in the number, "If They'd Only Let Poor Adam's Rib Alone," caught the hearts or the floating ribs, and they refused to allow them to disappear without responding to several encores. Mrs. Elmdon sang, "When You Wish 'Tis the Last Song," after a very pretty de-

monstration. Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been curing the women of this country from the worst form of female ill, and merit alone could have stood such a test of time and won such an enviable record.

# DIVISION AMONG ALAMEDA'S SOLONS SEEMS FATAL TO 'GREATER OAKLAND'

## Final Public Hearing on Consolidated Government Is Held at the Capitol

SACRAMENTO, Feb. 5.—The hearing before the assembly committee on constitutional amendments and the senate committee on county government, on the amendment aimed to enable the people of Oakland to establish a joint city and county government, has been closed so far as the public is concerned. Last night there was an extended discussion of the proposition in the assembly chamber, in which the whole subject was traversed. No action was taken, however, to recommend or otherwise dispose of the amendment.

The next move in the matter will be the consideration of the measure in each of the committees. This consideration was initiated by Assemblyman Coghlan, who voted at least half its measure will be of an executive character and such also will be the case with the next consideration of the measure in the committee on county government in the senate.

### Favorable Reports Not Encouraging

The prospects for favorable reports from those committees is not encouraging. One reason for this is that the representatives of Alameda county who are held, should be unanimous on the amendment, are divided. This is especially true of the members from that county in the upper house, in which there are four senators, namely: Bates, Leavitt, Stetson and Strobridge.

Of these, only Bates favors the proposition. No, only that he has been tireless in his work and forcible and eloquent in his presentation of the case.

Leavitt says the demand for the proposed change is confined to a few people who would do great things to compromise in the matter of paying taxes, and asks in the next breath why these same people do not suggest at once that Oakland and all the other neighboring towns align themselves with Greater San Francisco.

Senator Strobridge is unalterably opposed to the measure.

Senator Bates of Alameda says he will be in favor of the bill when the people of his home city indicate to him that they are in favor of giving up the identity of their town.

When the announcement was made at the last session of the state legislature that the two county senators were to divide in the manner indicated, Senator Price of Santa Rosa said that while Alameda county was divided as she is, the assessors were to be excluded from further consideration of the subject, until the representatives of that county should agree as to what the terms of the county demanded.

### Assemblymen Divided, Too

Division, too, exists among the Alameda county delegates in the assembly, especially those who represent communities which are not as unanimously in favor of the measure as some of the immediate territory which Oakland would like to include within the lines of her greater city.

There are a number of Berkeley opponents of the amendment, yet he said he knew his business associate and many and many others were in favor of it.

Town Clerk Mendenhall said that the assessment of the county cost \$100,000 a year, which is expended fruitfully because the county assessor goes over the same work.

Cochran asked him then, why he was not in favor of the proposed consolidation and thus save that expense by having the work done by the county.

Mendenhall's reply was that he would consent only to a city and county of Berkeley.

Assemblyman Otis opposes the change because he says he knows his constituents in Alameda want to have nothing to do with Oakland along governmental lines.

Assemblyman Silver of Pleasanton opposed the amendment principally on legal grounds.

### Coghlan a Stumbling Block

Another thing that makes a favorable report of the measure extremely improbable is the fact that Chairman Coghlan, who is also chairman of the committee on constitutional amendments, is opposed to the measure on the ground that under the low rate of taxation which would follow consolidation, the new Oakland might be able to secure many more voters than those which otherwise might go to San Francisco. He indicated this by asking, at the present meeting, an advocate of the amendment, after he had heard that Oakland was anxious to secure new industries, whether or not the latter was considered sufficient excuse for a loyal son of San Francisco to vote against the measure.

Last night, while in the chair, the first question in effect, which Coghlan propounded to J. H. Clay, president of the Chamber of Commerce of Oakland, was as to whether, with a lower rate of

### Gambling in Cigars

It's no use doing a thing half way. If California intends to stop gambling, let it be done absolutely. The nickel-in-the-slot machines, the Chinese lotteries and the hundreds of other mediums by which people gamble are just as vicious in their results as race track gambling.

At our cigar departments in our two drug stores we permit none of this cigar gambling business. We sell cigars and we sell them cheaper than any other reputable cigar dealers in town.

We sell all 12½¢ Cigars for 10¢ all the time and we sell all standard 5¢ Cigars 7 for 25¢ all the time.

You don't have to gamble to win in our cigar departments. You save—not win—20% of any purchase you make, be it one cigar or half a dozen boxes.

Our cigar departments are in our stores at 12th and Washington and 7th and Broadway.

tation, Oakland would be able to secure industries which otherwise would go to San Francisco.

The query was asked with a smile. Mr. Clay was present for the first time. He did not know the purpose of the query, and with Oakland veracity and pride modestly admitted that Oakland was in the field for new industries as well as everything else that indicated progress and prosperity.

Cochran smiled again, congratulated himself that he had a second time proved to his own satisfaction that Oakland was striving to be a rival of his home town, which, of course, means that the duty of a loyal son to San Francisco is to San Francisco; and, for that reason, Coghlan's leaning may be presumed to be in favor of San Francisco as against the last vestiges of oak in the eastern side of the bay.

Counsellor Elliott of Oakland was the first speaker.

The people of Oakland, he said, did not ask the legislature to decide the merits or demerits of the measure. All it was asked to do was to submit the matter to the people and let them decide the question of the people.

The bill proposed that a city like Oakland could do away with its county government. It was a question of finances. Oakland had grown close to Berkeley, Alameda and Fruitvale. The government of Oakland had to take care of its sanitation, its streets, and everything. The county of Alameda was necessarily an expense. It cost \$100,000 a year, from which it did not derive any benefit save, possibly, the services of the judges. As a consequence, Oakland had an expensive government.

Why, therefore, should Oakland keep on her shoulders the responsibility of maintaining a city and county government? They wanted such a government, but not split up with the county of Alameda and Berkeley.

Now, that they knew that Oakland did not want them to come into the new city unless by a majority vote, both showed they were in favor of the change.

Wilbur Walker said the project represented twenty-seven different associations. He said that the territory involved in the proposed incorporation would show nearly as many people as were within the limits of San Francisco.

Mr. Walker presented a copy of the directories of San Francisco and Oakland showing that there were of about equal size. He also introduced resolutions indicating the proposed consolidation by the Merchants' Exchange, the Chamber of Commerce, the City Council, the Real Estate Men's Association, the Building Trades Council, the Cleaning House Association, the Underwriters and the Harbor League.

Assemblyman Strobridge is unalterably opposed to the measure.

Senator Bates of Alameda says he will be in favor of the bill when the people of his home city indicate to him that they are in favor of giving up the identity of their town.

When the announcement was made at the last session of the state legislature that the two county senators were to divide in the manner indicated, Senator Price of Santa Rosa said that while Alameda county was divided as she is, the assessors were to be excluded from further consideration of the subject, until the representatives of that county should agree as to what the terms of the county demanded.

Assemblymen Divided, Too

Division, too, exists among the Alameda county delegates in the assembly, especially those who represent communities which are not as unanimously in favor of the measure as some of the immediate territory which Oakland would like to include within the lines of her greater city.

Assemblyman Strobridge is unalterably opposed to the measure, yet he said he knew his business associate and many and many others were in favor of it.

Town Clerk Mendenhall said that the assessment of the county cost \$100,000 a year, which is expended fruitfully because the county assessor goes over the same work.

Cochran asked him then, why he was not in favor of the proposed consolidation and thus save that expense by having the work done by the county.

Mendenhall's reply was that he would consent only to a city and county of Berkeley.

Assemblyman Otis opposes the change because he says he knows his constituents in Alameda want to have nothing to do with Oakland along governmental lines.

Assemblyman Silver of Pleasanton opposed the amendment principally on legal grounds.

### Coghlan a Stumbling Block

Another thing that makes a favorable report of the measure extremely improbable is the fact that Chairman Coghlan, who is also chairman of the committee on constitutional amendments, is opposed to the measure on the ground that under the low rate of taxation which would follow consolidation, the new Oakland might be able to secure many more voters than those which otherwise might go to San Francisco.

He indicated this by asking, at the present meeting, an advocate of the amendment, after he had heard that Oakland was anxious to secure new industries, whether or not the latter was considered sufficient excuse for a loyal son of San Francisco to vote against the measure.

Such a vote, with the measure.

Last night, while in the chair, the first question in effect, which Coghlan propounded to J. H. Clay, president of the Chamber of Commerce of Oakland, was as to whether, with a lower rate of

measure aimed to make Berkeley come into the consolidation whether that city wanted to do so or not. In Berkeley there was a division of sentiment. He read the plank of the Republican city convention indicating the setting out of the five-mile line in the matter of the location of a county seat in a new county, with the purpose of enabling Oakland to advance its interests. He said that he was in the field for new industries as well as everything else that indicated progress and prosperity.

Cochran smiled again, congratulated himself that he had a second time proved to his own satisfaction that Oakland was striving to be a rival of his home town, which, of course, means that the duty of a loyal son to San Francisco is to San Francisco; and, for that reason, Coghlan's leaning may be presumed to be in favor of San Francisco as against the last vestiges of oak in the eastern side of the bay.

# Coffroth Signs Good Lightweight Match

## M'FARLAND AND HYLAND MATCHED BY JIM COFFROTH

**Lightweights Will Meet at Mission Street Arena--Jack Johnson Will Be Given Chance on Stage.**

By EDDIE SMITH.

PACKEY McFARLAND vs. "Fighting" Dick Hyland, 25 rounds at the Mission street arena, February 22, at 2:30 p.m., under the direction of "Oily" Jim Coffroth. That sign will look pretty good to the fans when they see it pasted about the fences and barrier walls of San Francisco and Oakland, and no doubt a good crowd will fill the gymnasiums of the afternoon of Washington's Birthday. It is the making of time that there was some danger on the same "Oily" one golden day, for he had to talk and talk and talk to get the match; in fact, according to the official figures, "Oily" Jim spread the salve for just two hours, and at the end of that time McFarland's manager, Harry Gilmore, walked out of the meeting place announcing that he would send his fighter back to Los Angeles. Was Coffroth mad? Well, suppose some one frisked you for your watch and chain and bank roll and you had nothing to go on, would you be mad? The comparison is just the same. Coffroth might as well have the bank roll slid out from under him as to lose the bull, and last evening he almost ran dry when he did not land

### Trouble Starts

After the "slap" little manager that looks after the affairs of the stockyards fighters had been gone for about an hour he returned, however, and announced that it would be him who had allowed the promising kid to run dry like that and not do any bushiness, so he took the matter up with McFarland, and an agreement was reached between them that no matter what Hyland wanted they would agree. The trouble first started when Lee Powell, who had been practically matched with McFarland the day previous, came into the Wibb's and made the announcement that he had dropped over the greater part of the night before and found that he was taking too much the worst of the deal in the matter of weight. Packey's manager announced that there would be no change in the weight agreements as made the night previous, and the match was off. Every valve in the system opened and a red-hot lot of salvoes started to flow in such enormous volumes that before long the promoter was in danger of running dry.

### Reach Agreement

As soon as the Powell incident was over Coffroth became hot salami, and began to haggle with McFarland's manager, and Jack Perkins, representing Dick Hyland. This again started things, for the managers could not agree on the number of rounds and they could not agree on the weight. McFarland wanted 136 pounds a few hours before the contest, and when Hyland insisted on 135 pounds at the same weight per hour. To this Gilmore would not agree, so the match was given up and the men parted, apparently to never meet again. After an hour Gilmore reappeared, however, and announced that he was ready to step up with Hyland, and the two agreed at 136 pounds. Scott agreed nine times for safe ones. Scott scored for Stanford and Schaefer and Donovan for Santa Clara.

### Sayers Ready to Train

Manie Sayers will arrive from Los Angeles today and will immediately begin training for his coming contest with Johnnie Murphy before the Mission club this month. Murphy will meet him at Ciro's. Already the first of next week and announces that he has little fear of his ability to clean the fighter from the south. Whitney and Nell, the special favorites, are already in training and have been doing light work ever since they were matched, which means that both will be in good condition when they enter the ring. Machinist Resnick has not yet made his preliminary match.

### Attell Offers Another Lemon

One Attell cuffed off another one on an unsuspecting public last evening when he beat Eddie Kelly met at New Orleans for the third time in their careers. Attell is the real thing in the planting business just now and is following the footprints of Kid McCoy, Tommy Ryan and the king of all fakers, Jack O'Brien, as only a student could.

The Knights of Columbus, St. Ignatius College and Mercy Alumni want to have a home Corby dinner the ball park when the star twirler pitches his first game.

Joseph H. Kries, president of the Alameda County baseball league, and manager of the Krieg & Halton team of Alameda, has secured a lease on Rockfield Park for the coming season. Last year the grounds were used by the State league.

LAWRENCE, Feb. 5.—Jack Britton of Chicago, was bested last night in a six-round battle by Leo Houck, champion lightweight of Lancaster county. Every round was marked by heroic struggle.

GEORGE W. PEZET, of the Oakland Billiard Parlor, has entered the Pezet-Corino game of the Oakland Billiard Parlor tournament. He also demonstrated that the hand's upper might have been equal to his own when pitted against the scratch men. Couros held him down for an even battle for twenty rounds, but when he got a series of three wins of 14, 19 and 8, the most beautiful open-table shots seen during the contest. Couros could not even get a scratch hit, and Corino was putting up but although up against a losing game, he bowed up signs of "rattles," making the best of the few opportunities offered. It was not in him win. Result: Pezet, 12½, Couros, 9. Referee: Pezet.

Tonight: Harris, 16½ vs. Leidy, 12½.

## St. Mary's Team and Bankers to Play Benefit Game

The Phoenix baseball team and local nine of Oakland bankers will play a game next Sunday afternoon at 2:30 on the St. Mary's grounds for the benefit of Johnnie McDonald, well-known and popular young man of Oakland, who has been attacked with a fatal sickness and whose family are in need of aid. St. Mary's will put out their best team and an exciting contest is looked for. Unless there are heavy rains between now and Sunday the grounds will be fully dried enough. First Baseman Sears of the San Jose State League will be seen in the lineup of the bankers.

St. Mary's basketball team defeated the Sacred Heart five last night by a score of 14 to 8 at the games held in the Auditorium under the auspices of the Guello Club. Tim was the second meeting of the two teams. Sacred Heart won in the recent Cornell meet. The relay race between the teams from the same two institutions was won by St. Mary's also. The two teams will meet again on the evening of the 18th at the Auditorium.

JOHNNIE MILLIN's younger brother, Fred, of the Stanford team, accidentally started the talent on the side of the ledger by winning the initial event in a common center, ran a dandy improved gun River for second place.

## Runners Training For Marathon Race

Athletic fans are anxiously awaiting for February 10, when they will have an opportunity to witness the contests to be the greatest Marathon race ever held on this side of the Rockies. Tim McGrath, familiar to all as a promoter of champion prize fighters, says that it will be a hummer. His reasons for declaring that the exhibition will put the former contests in the shade are that he has contracted to run the best long-distance human pattern that can be found on the coast. Tim's chief shot is the "Silent" King, George Miller, William Stanley and Jim Hill. Strengthen efforts have been made to secure Cornelius Coughlin, but up to date he has not signified any willingness to compete against the above speed burners.

With the weather made his affected windpills Chittenden, 40, and his body badly in the second race to hold him to the front at once in home racing, Paschal B. Conant, easily holding Foot the place. Blameless and B. first and second choice respectively, lacking in speed.

Representing himself to be in search of a room, a stranger called at the residence of Mrs. Emily Evans, 1471 Ninth avenue, and without paying a deposit, engaged apartments for a month. He therewith made an investigation of the house and secured three stem winding watches with which he decamped.

The police have been notified of the theft and have a good description of the man.

## MAKE OFFER TO TAKE OVER AND IMPROVE OAKLAND WATERFRONT

The American Engineering and Construction Company, through its representative, J. T. Flynn, has presented to the City Council a proposition to take over the Oakland waterfront, improve it at a cost of \$1,000,000 and at the end of 50 years turn over the system of wharves and shipping facilities to the city. The matter is in the hands of the waterfront committee.

The communication in part is as follows:

"Appreciating the desire of your honorable body to place the city of Oakland in a position to share in the great inter-oceanic commerce which the early completion of the Panama canal will make possible, and realizing the necessity of immediate action in the matter of waterfront improvements in order that ships carrying inter-oceanic cargoes in competition with the transcontinental railroads may find a port of call in the economic dockage in the city of Oakland, I beg to submit the following:

### To Construct Sea Wall

"First—In consideration of a lease granted to me on my assigns, for the sum of \$1,000,000, which will be paid by me, the low water mark of 1862 on the east, the channel waters or pierhead line on the west, the South Pacific railroad, the San Joaquin and the Western Pacific railroad line on the south, together with the right to build and operate a belt-line railroad within said limits, and along the low water mark, during the period of the lease, the limits of the city, including the right to construct 1,000 feet of sea wall in the Oakland estuary, at some point between the east end of the government wharf and the corner of Webster street bridge, I will pay the city of Oakland the sum of one thousand (\$1,000) dollars per year in advance for the full fifty years, and when the city of Oakland has paid all expenses, interest, and other improvements on said property to the value of one million dollars, and forfeit all of said improvements to the city at the expiration of said lease.

### Terminal Facilities

"Second—in consideration of the waiver or exemption of city taxes on said improvements, I will agree to make a minimum weekly toll of twenty cents per ton on all classes of freight except explosives, passing over said dock, 25 cents per ton per month storage, and maximum switch rate of five cents per car, and hold until further notice.

"Third—I will further agree to afford ample terminal facilities upon said property for any or all transcontinental railroads, and to lease such property to be approved by the City Council of Oakland at any time during the life of said lease."

"Fourth—I will agree to expend not less than fifty thousand (\$50,000) dollars during the first year of said lease in reclamation work preparatory to the construction of the dam system, and raise the same to manufacture a sum equal to ten per cent above the actual cost of said improvements.

"Fifth—I will further agree to extend such additional sum per annum as may be necessary to accommodate commerce and secure the maximum expenditure provided for herein.

### Factory Sites

"Sixth—I will convert such territory as may not be available for docks into factory sites, with railroad tracks and power lines, and agree to lease the same to manufacturers at a sum not to exceed \$500 per acre per annum for the first five years and not to exceed \$1,000 per acre per annum thereafter."

"Seventh—I will agree at any time after five years, or upon completion of said work, to relinquish the same to the City Council, and to take a sum payment therefor: twenty years four percent bonds to an amount equal to ten per cent above the actual cost of said improvements."

"Eighth—the plan of improvement proposed herein conforms in a general

## ANTI-JAP WAVE AGITATORS' WORK

Prominent Members of Race in New York View Coast Legislation Calmly.

**NEW YORK.** Feb. 5.—Prominent Japanese residents of this city are inclined to view calmly the agitation against their race on the Pacific coast, and the conservative element in Japan, do not think that the California assembly, in passing a bill excluding Japanese pupils from the schools, represents the general feeling in the United States.

M. Kokichi Misuro, the Japanese consul general here, declined to make any formal statement against the vote in California, but several well-to-do merchants expressed their views.

### Public Sentiment Not Voiced

R. Sato, one of the best-known members of the Japanese colony in this city, a graduate of Harvard and a man who has business correspondence in California, said:

"Letters from California and Nevada tell me that the members of the legislatures of those states, who are known as being antagonistic to the Japanese, do not really represent the feeling of the people of those states. The number of these agitators is growing less daily. If they had waited until next week to take a vote on the legislative measures directed against the Japanese, I doubt if any of the bills would have passed. Nobody can tell what the effect of this legislation will be."

### MEMBERS OF NEW GERMAN CLUB TO HOLD MEETING

**ALAMEDA.** Feb. 5.—The newly organized German club will meet on next Wednesday evening at the home of Mr. F. G. Baker, 1160 Bay street. At the last meeting the club was formally organized. Mrs. F. G. Baker was elected president; Miss Erna Siegar secretary; Mr. Boencke chairman of the program committee which is composed of Mr. and Mrs. Siegar and Miss Soule. Miss Hewlett was made chairman of the membership committee.

**BERKELEY.** Feb. 5.—Bear Flag Parlor, N. D. G. W., will give its third annual ball this evening in Bonita Hall, Alameda Avenue. The punch will be served between the dancing. Committee in charge of the affair comprises Miss Isabel Floyd, Mrs. Frank McAllister, Miss Carrie Trahan, Miss Annie Callish and Miss Dahlia Stoker.

## A SQUARE DEAL WILL ALWAYS WIN IN THE LONG RUN

Sterling Business Policy of the Eilers Music Company Making Many Friends for Them During the Great Clearance Sale Which They Are Now Conducting.

THE EILERS MUSIC CO.'S unprecedented money-saving proposition has caused consternation in piano trade circles. "HOW CAN YOU DO IT?" "WHY DO YOU DO IT?" and "How long will you do it?" are the comments of the trade and the public. We simply have made a STRAIGHT-FORWARD CUT RATE PROPOSITION, which any intelligent piano purchaser can appreciate, and many have shown their appreciation by their valued patronage in the last two days. "We are sincerely amazed at our success ourselves. "Will you ABSOLUTELY GUARANTEE A SAVING OF FROM 25% TO 35%?" is the query of many. To all of these questions we reply that all schemes of every description are eliminated from this offering. It is simply a STRAIGHTFORWARD, LEGITIMATE BUSINESS PROPOSITION to dispose of a large number of pianos. We realize that to dispose of many pianos in a short time drastic measures must be adopted. Eight of our delighted purchasers yesterday have voluntarily offered us their written testimonials expressing their sincere satisfaction, etc. Many of them have visited the important piano stores of both cities, and after careful investigation emphatically say that combined with our easy pay plan, our prices really offer a GENUINE SAVING OF FROM 25% TO 35%. WE WILL ABSOLUTELY GUARANTEE THIS and furthermore make the same assertion a condition of the sale. If you ever think of purchasing a new piano at least call at our Oakland warerooms (557 12TH ST., OPPOSITE THE ORPHEUM), and convince yourself. When you think the matter over conservatively and realize that you can buy high-grade NEW \$460 PIANOS FOR \$268, new \$185 pianos for \$298, new \$525 pianos for \$320, new \$550 pianos for \$398, is it not significant? Combined with our immense stock of FCRTY DIFFERENT makes we have taken in exchange during the last few weeks on our genuine AUTOPIANO, CHICKERING and Sohmer pianos, several very fine, high-grade second-hand pianos, which will be offered during the next few days at prices from \$65 UPWARDS. During the next two weeks our Oakland warerooms will be OPEN EVENINGS to accommodate those who find it impossible to call during the day, and also to comply with the urgent requests we have had from quite a few prospective buyers. Remember that all pianos sold are accompanied by the well known EILERS IRON-CLAD GUARANTEE, which precludes any possibility of dissatisfaction. ALL PIANOS SOLD MUST BE EXACTLY AS REPRESENTED OR MONEY REFUNDED.

## FULL TEXT OF BILL TO END GAMBLING ON RACES

Following is the full text of the anti-racetrack gambling bill passed by the upper house of the Legislature yesterday:

An act to add a new section to the Penal Code, to be known as Section 337 A thereto, and relating to gambling by pool-selling, bookmaking, bets and wagers, and providing the punishment for the violation thereof.

The people of the State of California, represented in Senate and Assembly, do enact as follows:

Section 1—That a new section is hereby added to the Penal Code, to be known as section 337 A thereto, and to read as follows:

337 A.—Every person who engages in pool-selling or bookmaking, tent, tent, booth or building, float or vessel, or boat, or part thereof, or who occupies any place or stand of any kind, upon any public or private grounds within this State, with books, papers, apparatus or paraphernalia, for the purpose of recording or registering bets or wagers, or of selling pools, or who records or registers bets or wagers or sells pools upon the result of any race or contest of skill, speed or power of endurance of man or beast, or between men or beasts, or upon the result of any lot, chance, casualty, unknown or contingent event whatsoever, or who receives, registers, records or forwards, or purports or pretends to receive, register, record or forward, in any manner whatsoever, any money, thing or consideration of value, bet or wagered, or offered for the purpose of being bet or wagered, by or for any other person, or sells pools upon any such result; or who, being the owner, lessor or occupant of any room, shed, tenement, tent, booth or building, tent, tent, vessel, or part thereof, or of any grounds within this State, knowingly permits the same to be used or occupied for any of these purposes; or who exhibits or employs any device or apparatus for the purpose of recording or registering such bets or wagers or the selling of such pools, or becomes the custodian or depositary for gain, hire or reward of any money, property or thing of value staked, wagered or pledged, or to be wagered or pledged upon any such result, or who aids, assists or abets in any manner in any of the said acts, which are hereby forbidden, is punishable by imprisonment in county jail or prison for a period of not less than thirty days and not exceeding one year.

### HOW THE SENATE VOTED

AYES—Anthony, Bates, Bills, Bell, Birdsall, Black, Boynton, Burnett, Campbell, Cartwright, Curtis, Cutten, Estudillo, Holohan, Hurd, Kennedy, Lewis, Martindale, McCartney, Miller, Price, Roseberry, Rush, Sanford, Savage, Setston, Strobridge, Thompson, Walker, Welch, Willis, Wright—33.

## ANTI-RACE BILL AWAITS SIGNATURE OF GILLETT

Likely to Be Signed Without Any Delay

**SACRAMENTO.** Feb. 5.—The fate of horse racing in California is up to Governor Gillett, and as it has been understood all along that he would sign the racetrack bill, which yesterday passed

the senate by a vote of 33 to 7, it is granted by all that the racing game is doomed. The bill will become law sixty days after the Governor signs it. In response to questions Governor Gillett said yesterday:

"I suppose the racetrack bill will reach my desk early next week. When will I sign it? Why, I don't know. Why? I shouldn't sign it right away. The end of the racing season? I don't know anything about the racing season. Yes, it may be called to my attention, but it is just possible that the bill will be signed without delay."

### JOKER IN BILL TO AID RACE-MEN, IS CLAIM

**LOS ANGELES.** Feb. 5.—According to a story published here, a prominent attorney of Los Angeles, who has taken interest in the effort being made to do away with race track gambling in California, has pointed out what he says is a joker, "aimed to aid the race track supporters, in Assembly Bill No. 584," which is an act to amend the Penal Code of the state relating to jurisdiction of justices of the peace. The bill is now pending and should it pass, justices of the peace throughout the state could have absolute jurisdiction in all cases of misdemeanor punishable by a fine of not exceeding \$500, or imprisonment not exceeding six months, or both. Race track gambling would come under this classification.

The attorney pointed out that if violations of a law against race track gambling were to be prosecuted in justices' courts for the respective townships the gamblers would be tried before a justice of the peace, and controlling the race track. The racing and gambling could go on indefinitely, with continuous prosecutions, and no stopping of the gambling.

### ENTERTAINMENT BY CHOIR IS POSTPONED

**ALAMEDA.** Feb. 5.—The entertainment which was to have been given on the evening of February 11 by the members of the new choir of St. John's church, has been postponed on account of interfering with the theater party of the Y. M. C. which will take place on that date. For the present no other date has been set.
